**ST. LOUIS,**       -       -       -       -       **MISSOURI.**

The WESTLICHE POST was established in 1857, and is therefore one of the oldest German daily papers in the West. It has for nearly twenty years been selected as the official city paper of St. Louis—as the paper having the largest daily circulation within the city limits. No better advertising medium can be found for all business purposes. Its Weekly Edition has a very large circulation in Missouri and Illinois, and an extensive one in Iowa, Kansas, Nebraska, Texas and other Western and Southern States.

The WESTLICHE POST is the only German-American paper furnished with Special Cable Dispatches from Berlin, Vienna and London, in addition to its regular inland and foreign telegraphic reports by the Western Associated Press. It has its own bureau established at Washington, D. C., enabling it to get the news from the national capital reliable, complete and prompt. Besides its regular staff-correspondents in New York (two), San Francisco, London, Vienna, Southern Germany and Switzerland, a Traveling Correspondent in the Western States and a large number of Occasional Correspondents and Contributors furnish all important news and assist in making it a live and newsy paper.

The Sunday Edition contains, besides the general news of the day and the telegraphic dispatches, an abundance of choice reading matter, making it the ever-welcome visitor in the family circle.

The Daily Edition of the WESTLICHE POST is a nine and very often ten-column paper. The Sunday Edition is an eight and very often a ten-page paper, of nine or ten columns.

The Weekly Edition is published and mailed every Tuesday, with ten columns per page of the largest size, containing very few advertisements, and consequently those appearing in it are of so much more value.

The Weekly Edition also has a large circulation in Germany and Switzerland.

**WEBSTER, - - - MASSACHUSETTS.**

JOHN M. CORT, . . . . . Manager.

For twenty-eight years the TIMES has been before the citizens of Webster, and we venture to say that for the outlay no other editor or paper has given so much for the money as we have given during the past ten years.

A comparison of the TIMES now with its initial numbers, or even under the management of Mr. J. A. Dresser, will compare favorably. It is our purpose to make the paper more acceptable this year than ever before, and shall for that purpose introduce new features, and will keep up its present large local news, together with the best items of general information, with short pithy editorials on topics of local and general interest, together with the happenings in our sister towns within a radius of a dozen miles. In this effort of ours to cater to the wants of our constituency we hope to receive and merit the patronage of the people of Webster and Southern Worcester County. We also shall continue to give a choice selection of Stories, Poetry and general literature of interest to the family, farm and general public.

To advertisers the TIMES cannot fail to be a paying investment, and we trust will be correspondingly patronized. It is decidedly the best medium through which to inform the public of the goods you keep for sale. We display all announcements to the best advantage and with taste. Our terms are also reasonable.

**Remember! The future price of the "Times" is \$1.50.**

Now is the time to subscribe. Send in your names at once and secure the WEBSTER TIMES for 1886.

A NEAT, EIGHT-PAGE, 24-COLUMN PAPER, ABLY EDITED AND CONDUCTED.  
CONTAINING INFORMATION OF VAST IMPORTANCE TO  
ALL ENGAGED IN SILK CULTURE.

---

Arrangements have been made with that devotee of silk culture, Mr. L. S. CROZIER, to write a series of articles on silk culture, which, taken together, will comprise one of the best—if not the best—manuals ever offered to the public. He will also have sole charge of the "Letter Box" column, through which he will answer all inquiries bearing directly or indirectly on the subject.

These two features of our paper by themselves would render it invaluable to all practical silk culturists.

The "Exchange" column, another of our features, we think will prove a handy and profitable means for our subscribers to exchange articles which, while they may be of more or less value, may be of such a nature that it would prove hard for the owners to get their cash value out of them. Besides these three main features, we will try to make this

A VALUABLE GENERAL NEWSPAPER TO SILK CULTURISTS.

# Peoria Daily Journal.

**PEORIA, - - - - - ILLINOIS.**

THE PEORIA DAILY JOURNAL began business on the 3d of December, 1877. A canvass of the city of Peoria had been previously made and a circulation of 1,700 subscribers had been secured. Its venture was modest enough. It occupied a cellar on a side street. Its one room held the editorial, news, press and engine departments. One of its proprietors was political editor, local editor, news reporter, proof reader and collector. The other was foreman, pressman, bookkeeper, advertising agent, engineer, and in addition set the ads. and swept out. The paper made no salutatory, and every Saturday night the proprietors, after paying all the bills, divided the profits by each taking half of what was left. The paper began next week, as country papers usually do, without a dollar.

THE JOURNAL was thus started without capital, but it paid the first week, and has continued to pay ever since. It never ran behind a dollar. It is probably the only daily paper in the world of which this can be said. In a year it rented an office and news room on the first floor.

After three years more there was a demand for an opera house in Peoria, and E. F. Baldwin, of the firm of Baldwin & Barnes, proprietors of THE JOURNAL, organized a stock company, and erected upon the public square what is undoubtedly one of the finest opera houses in the West. The building is 171 feet long, 72 feet wide, with its tower, 100 feet high. It cost, with its lot, about \$100,000. When completed, THE JOURNAL removed into one of the offices on the ground floor and occupied the basement for a press room.

In April, 1885, THE JOURNAL was incorporated as a stock company, with a capital of \$100,000, E. F. Baldwin, J. B. Barnes and Charles H. Powell holding the entire amount. THE JOURNAL COMPANY now purchased all the stock of the Opera House Company, and proceeded to occupy the whole of the second story, the large office on the first floor and the basement. It has now unquestionably the finest newspaper office in the West. The basement is occupied by a press room, and contains one of the latest improved Potter perfecting presses, capable of printing and folding 35,000 complete newspapers an hour. The business office is finely fitted up, occupying a room 20x40 feet, carpeted with Brussels carpet, arranged with counters, desks, telephones, and all the paraphernalia necessary for the transaction of business. The type room in the second story will accommodate a large force of printers. It is heated by steam, as is the whole building, and has an elevator running to the basement below. Adjoining this is a large editorial room, magnificently appointed, carpeted with Brussels, as are all the other rooms adjacent—the telegraph, proof readers', and private editorial rooms and library. THE JOURNAL has its own telegraph operator, and his room is supplied with a complete set of instruments and wires from the Western Union, the Postal, the Board of Trade telegraph companies—all are connected at his table. Next this is the proof readers' room, also elaborately supplied. The private editorial room is next the library. This is a large room, twenty feet square, provided with a costly reference library, all the encyclopedias, histories, gazeteers, atlases, and every work that is needed in the preparation of a daily paper.

THE JOURNAL has now on its pay-roll sixty-seven employees, besides its corps of correspondents, and upward of ninety agents in surrounding towns. Its policy has been to stick to and protect its employees. As soon as one is married and settles down, he is encouraged to purchase a lot and put up a house. In the last two years upward of ten thousand dollars have been paid by employees of THE JOURNAL for real estate. All the older members of the force now reside in their own homes. It is believed that THE PEORIA JOURNAL is one of the most prosperous and flourishing papers in the country. It has the largest circulation of any paper in the West located in a city of no more than 40,000 population, as will be seen from its sworn statement. It now averages over 7,000 daily.

In 1885 the company commenced the publication of one of the largest and best weekly newspapers in the United States. It is an eight-page sheet, and contains 72 columns of original reading matter, and is rapidly growing in favor with the farmers of the West.

## ITS ADVANTAGES TO ADVERTISERS.

Its pages are broad, admitting of unusual display; and the paper used is finer than in almost any other publication. Its circulation has not only become national, but international, reaching all classes. The READERS are those who have taste, culture and riches; and the magazine is not laid aside after the first reading, but remains upon the study-table, thus bringing the advertisements constantly before the reader's eye.

## WHAT IS SAID OF IT.

"It is more than a periodical: it gathers into permanent and accessible form material that would otherwise be lost, or only found with great effort. Its articles are uniformly well written, and the illustrations and print complete the attractiveness of the magazine."—*New York Commercial Advertiser*.

"Mrs. Lamb is making of this magazine one of the best periodicals in America."—*New York Tribune*.

"Each number always presents an admirable collection of papers, and maintains the high character of the gifted editor, who, in her history of New York city, displayed the highest qualities of an author. The magazine is as instructive as it is entertaining."—*Scientific American*.

"Mrs. Lamb edits this unique periodical with excellent taste."—*New York Independent*.

"We confess surprise at the remarkable vigor and vivacity that is aroused and maintained by this periodical under the editorship of Mrs. Martha J. Lamb, much as one might expect from her wonderful genius and perseverance. The work is a credit to American scholarship, and it gives hope that we shall in the end develop a taste and an army of students for the purpose of local historical research."—*Northern Christian Advocate*.

"It has won its high rank by earnest and consistent endeavor; its success in a great measure is due to the ability with which it is conducted by its painstaking and conscientious editor. In the province of local American history Mrs. Lamb has few equals and no superiors, and as long as the magazine remains in her hands its friends need have no misgivings as to its future."—*Queries*, Buffalo, N. VINITA,

CHEROKEE NATION, IND. TER.

Published weekly. JOHN L. ADAIR, Editor. M. E. MILFORD, Manager.

Vinita is the largest town in the Indian Territory and the only one enjoying the benefits of two railroads. The people living tributary are the most enlightened and enterprising in the Territory. As the INDIAN CHIEFTAIN is the only paper in the Nation conducted by private enterprise, the reasons for its popularity and excellent circulation are all-apparent. It is the acknowledged leader of the "progressive element," and, as locally applied, this term includes practically all of the reading population of the Nation. No paper in the Territory has as large a circulation as the CHIEFTAIN, and none equals it as an advertising medium.

### WHAT NEWSPAPERS SAY OF "THE LEADER."

THE DES MOINES LEADER has just donned a new and very handsome dress, and its fine appearance, as well as signal editorial ability, is giving its party cause for great pride.—*Muscatine Journal*.

THE DES MOINES LEADER came to-day attired in a new dress, and looking every inch a model newspaper. It is a splendid paper these days, and every man who cares to have a correct understanding of Iowa politics should have it in his house.—*Sioux City Tribune*.

THE DES MOINES LEADER has evidently struck "a rich lead," and it is now a metropolitan sheet. Besides being one of the leading papers in the State, it is laboring for a just cause, and reward will surely crown its efforts.—*Council Bluffs Gazette*.

With a display of journalistic enterprise amounting almost to audacity, THE LEADER made its appearance on Monday morning, and gave notice that hereafter it will be issued seven days in the week. It now enjoys the distinction of being the only seven-day daily published in Iowa.—*Capital*.

THE DES MOINES LEADER, the only sound Democratic daily published in Iowa, comes to our table every day. Without it no Democratic office is complete. It is, in fact, the true leader of Democratic doctrine, and should be taken by every Democrat who takes any part in Iowa or national politics whatever.—*Solon Reaper*.

Mr. W. H. Welch, of this city, one of the most successful and sterling newspaper men of the State, has purchased THE LEADER. Mr. Welch is a whole newspaper outfit himself. He is thorough and practical from top to bottom, and brings to the paper a powerful personal as well as substantial financial influence.—*Des Moines Trade Journal*.

THE DES MOINES LEADER is finding its way on every train in the Northwest and on every news stand. Editorially, THE LEADER is the strongest paper in the State, and is rapidly becoming one of the best papers for State news.—*Webster City Graphic*.

We give the advertiser a large and growing circulation in one of the best States of the Union. We have correspondents in every county in Iowa, and THE LEADER sustains a high and favorable reputation as a newsgatherer and as a first-class journal, making it a most desirable medium for advertisers. We respectfully invite you to use THE LEADER.

Correspondence has our prompt attention. Faithfully yours,

W. H. WELCH, Manager.

"The contents are exceedingly timely and readable, the articles being from good writers and the subjects well chosen."—*The Toledo Weekly Blade*.

Comparing THE NEW ENGLAND MAGAZINE with others, *The Journal of Education* (Boston) says: "It has an historical value second to none in this country."

## The New England Magazine.

This Magazine enjoys a liberal patronage from those who take a lively interest in the historical, biographical, educational and industrial interests of the six New England States. It is the aim of the publishers constantly to broaden its scope, so that it will be of value, not only to every New Englander, whether resident or otherwise, but to every person who takes an interest in the history of the United States.

### "NEW ENGLAND IN THE CIVIL WAR"

will comprise a series of articles to be published throughout the coming year. These articles will treat in a systematic manner of the part taken by New England from the opening to the close of the war. Their authenticity as to the minutest details will be unexceptionable, and they will be of absorbing interest to both young and old.

### EARLY NEW ENGLAND HISTORY,

including sketches of life in colonial times, will be accurately portrayed by those who have had the rare opportunity of gaining access to many old and valued documents relating to the early days.

### "NEW ENGLAND INDUSTRIES"

will constitute another series of papers of unusual interest.

### "HISTORICAL SKETCHES OF CITIES."

### "BIOGRAPHIES OF NOTABLE PERSONAGES,"

### AND "NEW ENGLAND COLLEGES,"

are the titles of series of papers that will appear from time to time.

### SHORT COMPLETE AND SERIAL STORIES,

written by authors of acknowledged merit, will appear in each issue.

Under the headings, "EDITOR'S TABLE," "HISTORICAL RECORD," "NECROLOGY," "EDUCATION," "HISTORY AND GENEALOGY," "NOTES AND QUERRIES," will be found matter of interest to every wide-awake reader.

The Magazine is ably edited, and the opinions and views offered are such as will receive the attention and endorsement of intelligent thinkers.

*The Boston Herald*, in a late issue, says of the Magazine: "The editorial work in this Magazine is admirably done, and it is hardly a surprise to learn that it is rapidly increasing in circulation in all parts of New England. If maintained at its present standard, it will deserve its popularity."

*The Salem Register* pronounces it "An excellent magazine, beautifully printed, charmingly illustrated, and filled with attractive articles."

*The Milwaukee Journal* thinks, "It is a treasury of information to libraries and historical societies in all parts of the Union."

The opinion of the *Boston Daily Advertiser*, that "The articles are varied, carefully prepared, and full of interest," is worthy of regard; and the *Brooklyn Daily Times* considers that "Its ability and breadth of interest entitle it to a continent of readers."

TERMS: \$3.00 a year, in advance, postage prepaid; single numbers, 35 cents. Newsdealers and Postmasters will receive subscriptions, or subscribers may remit to us in post-office or express money orders, or bank checks, drafts, or registered letters. Money in letters is at sender's risk.

PUBLISHED BY THE

**WORLD TRAVEL COMPANY,**

**207 BROADWAY, COR. FULTON STREET, NEW YORK.**

---

The WORLD TRAVEL GAZETTE is published in the interest of travelers in all lands, and all lines of business connected with travel. The magazine was started for the purpose of suggesting attractive tours through Europe and the East, and to the leading Summer and Winter resorts of the United States, Canada, Mexico, the West Indies, etc. Most of those tours being rather expensive, the main circulation of the magazine was from the start and still is among A WELL-TO-DO CLASS OF PEOPLE.

In the course of development and by our close business relations with the transportation lines, the GAZETTE worked its way also into the offices of the LEADING RAILWAY AND STEAMSHIP OFFICERS, many of whom have become warm friends of our publication, as our advertising columns show.

A large number of proprietors of first-class HOTELS and SUMMER AND WINTER RESORTS keep our GAZETTE on file for the convenience of the traveling public, and use it as an advertising medium by which they reach a very desirable class of independent tourists.

The field of the WORLD TRAVEL GAZETTE has of late been greatly enlarged, and it now devotes considerable space to topics of general interest more or less connected with the transportation business, to sketches of travel in foreign lands, to art, music, theatre and modern literature.

Teach men that which will make them nobler, wiser and happier.—Honesty depends not upon religious or political belief.—Each proposition which cannot be mathematically demonstrated is superstition.

This is a 40-column, illustrated liberal journal, published monthly by W. H. McNiel. It knows neither creed nor party, worships neither God nor ghost, but teaches humanity. It denounces slavery, mental and physical. ## FIFTY THOUSAND DOLLARS!

FRANK SIDDALL OF PHILADELPHIA, HAS SPENT NEARLY THIS AMOUNT IN  
ADVERTISING HIS FAMOUS SOAP IN THE "PHILADELPHIA RECORD."

THIS IS WHAT HE SAYS:

"I have been a steady advertiser in THE PHILADELPHIA RECORD since January, 1879. In the first twelve months I spent not more than \$200—but the result was so very satisfactory (although the paper then had only a third of its present circulation) that I was encouraged to utilize its columns on a much larger scale, and I am satisfied that I never advertised to better advantage than in THE RECORD, although I have used nearly every leading journal in America. Its high character is a great point in its favor with me, and I have the best reasons for believing that its immense circulation is so widely distributed as to reach every part of the United States, however remote."

Mr. SIDDALL thought it out thus: No dealer carries goods which are not in demand; that is as certain as that the sun rises and sets; therefore I must go directly to the consumers and get them to make the demand. The demand once made, the dealers must handle my goods.

The argument was a good one, and being faithfully followed up, has resulted in an immense business.

GOODS HAVE MERIT.**

FOR THE NEW YEAR.

JOURNAL FOR HOMES AND SCHOOLS.

LOUISVILLE, - - - KENTUCKY.  
503 WEST MAIN STREET.

Do not order your periodical literature for the new year without examining a specimen number of this bright, breezy, cheery Magazine. It contains departments for every variety of home reading, some of which are not found in any other journal.

CURRENT HISTORY is a record of current civil and political affairs made interesting and attractive. An exchange says of it: "This department alone is worth much more than the very reasonable price of the magazine."

READING CLUB offers pleasant paths in historical reading and research, and will prove a delight to many.

HOME SUNLIGHT to encourage and develop all that is good in the home circle. An invalid mother writes us: "As a mother too feeble to talk to my boys, I most cordially thank you for 'Home Sunlight.'"

OUR CONTRIBUTORS.—While encouraging largely *home talent*, we have secured many of the best writers in the United States for the ELECTRA, and we claim that the body of our magazine will be filled with just as bright, entertaining and instructive matter as can be found in any journal. Its contributors are among the best, both North and South, East and West. Thus, while ELECTRA occupies a great central position geographically, we intend it shall represent the great central influences which must emanate from a literary magazine of the highest order, which, while it will serve for delightful recreation in every leisure hour, will at the same time help to enoble, purify and stimulate in all right and elevating directions. It has been the aim of the editors to make a magazine equal in general interest to the leading monthlies of enormous circulation; but, while not sacrificing its beauty and attractiveness, to contribute more than is instructive, solid and truly valuable.

SCHOOLS.—As an adjunct in school work, there is no superior.

## COMMENTS OF OTHERS.

"Lively, entertaining and useful."—*New York Observer*.

"Pure, wholesome and instructive, as well as entertaining."—*Herald, Ogden City, Utah*.

"Is filled with the choicest matter."—*Interior, Chicago, Ill.*

"ELECTRA deserves a place in every educated home."—*Canada Presbyterian*.

PRICE, \$2.00 PER ANNUM, STRICTLY IN ADVANCE; \$2.50 IF NOT.  
TEN CENTS PER SPECIMEN NUMBER.

ELECTRA is now the successor to *At Home and Abroad* and *Ladies' Pearl*, and is the best advertising medium in periodical literature in the South or West.

CLUB RATES.—Six copies of ELECTRA for \$10, or premiums given for new subscribers to those taking the trouble to collect. Remit us the names and money. A thousand Agents wanted on a liberal commission. AGENTS WANTED in every State and Territory.

## TO ADVERTISERS:

The ELECTRA, in closing Volume II., offers the consolidated circulation of *At Home and Abroad* and *Ladies' Pearl*. The combination of these three journals in one gives the ELECTRA pre-eminence in Southern periodical literature. Our largest circulation is now in the Central and Southwestern States. Texas alone has about six hundred subscribers, while Tennessee, Kentucky and Virginia each about that number. But we have constituents in every State and Territory in the United States, and are establishing local and general agents every where. One of the editors has just returned from an extended tour in the Northwest, establishing agencies, local and general, in Dakota, Minnesota, Wisconsin, Iowa, Indiana and Illinois, from whom we hope for rich rewards in the near future.

Supplying agents and sending out specimen numbers, with our regular subscribers, make our average circulation now nearly 5,000.

ADVERTISE IN THE

# Daily and Weekly Nonpareil.

COUNCIL BLUFFS, - - - - IOWA.

THE "NONPAREIL" IS THE OFFICIAL PAPER OF THE CITY AND COUNTY, IS REPUBLICAN IN POLITICS, AND MAKES IOWA AND WESTERN NEWS A SPECIALTY. IS A FIRST-CLASS FAMILY PAPER, FULL OF NEWS, MISCELLANY, AGRICULTURE, AND IS UNSURPASSED IN THE WEST AS AN ADVERTISING MEDIUM.

Let advertisers note the following facts: The NONPAREIL is published at Council Bluffs, Iowa, population 28,500, the distributing point of the western half of the State, the terminus and radiating point of nine trunk lines of railway, to wit: Chicago, Rock Island & Pacific; Chicago, Burlington and Quincy; Chicago and Northwestern; Kansas City, St. Joseph and Council Bluffs; Sioux City & Pacific; Wabash, St. Louis & Pacific; Chicago, Milwaukee & St. Paul; B. & M. in Nebraska, and Union Pacific.

Trains on each of these roads leave Council Bluffs early each morning, going Northeast, Southeast, North, South, East and West, and traverse fine and rapidly settling agricultural districts, containing hundreds of thrifty towns, each the business centre of the territory contiguous. For at least one hundred miles on each of these lines of railway the DAILY NONPAREIL is taken by the merchants, bankers, produce dealers and other business men of the towns referred to; it bringing them in consequence of its being the only paper in Southwestern Iowa belonging to the Associated Press, the telegraphic news, market reports and commercial intelligence, from 12 to 24 hours in advance of any other journal.

This, together with the further fact that the NONPAREIL is the oldest paper in Western Iowa—having been established as a Weekly in 1856, and as a Daily in 1861—has given it a circulation exceeding that of all the other papers published in the city, combined. Its circulation has the further merit of being among the class of men advertisers especially desire to reach—to wit: the business men and farmers of a prosperous and rapidly-growing section.

HEALTH AND HOME, Washington, D. C.:

*Dear Sir:* I have examined your statement of circulation and post-office receipts, and have compared the same, and can truly say as the result of my investigation, that your circulation is in excess of the numbers claimed by you. For September you claim 152,500, when your circulation was actually over 152,800. For October you claim 160,000, when you distributed by mail, district messenger and express over 161,000. For November you claim 165,484, when your actual circulation was over 166,000. For December your post-office receipts show upwards of 154,300. I can only estimate on your District and express distribution for December, and therefore do not calculate that in my figuring. For January you claim 174,535, when you actually sent out upwards of 175,000.

Dr. W. H. HALE:

*Dear Sir:* Upon examination of your bills for postage and presswork for HEALTH AND HOME, we have found that your claim for circulation of 150,000 to 175,000 copies monthly is thereby corroborated, and we shall with pleasure present HEALTH AND HOME to our advertisers for their patronage.  
 Very truly yours, LOUIS LLOYD & CO.

W. H. HALE, Publisher HEALTH AND HOME, Washington, D. C.:

*Dear Sir:* I have examined, as far as possible, post-office receipts and receipts from printers, and from the documents furnished it would seem to indicate that your circulation ranged from 152,000 to 172,000 each issue for the six months ending February, 1885.

Our business with your paper having been somewhat limited, we cannot answer for the results to advertisers. However, with this circulation, we do not think there is any doubt but what it will pay them.

CIRCULATION, 10,000. FIFTY THOUSAND READERS EACH ISSUE.

We are at present advertising in ALL the leading papers of the country, and increasing our circulation at the rate of 300 per day, reaching a class of people who read and answer advertisements. It pays to advertise in THE WILD FIRE, because it is a paper read by all. To Advertisers who deal with their patrons by mail, those who desire agents, or, in fact, all advertisers who wish to bring their goods prominently before the buying public, our paper offers a superior medium.

ADVERTISING RATES: 10 cents per agate line each insertion; \$1.40 per inch (14 lines). Reading Notices, solid, 25 cts. per line; leaded, 50 cts. per line. No extra charge for cuts or display advertisements. We want every responsible advertiser in the United States to give our columns a trial, and we are confident it will pay them well. THE WILD FIRE is published on the 1st and 15th of each month, and those intending to insert advertisements should see that their favors are sent so as to reach us by the 10th or 25th of the month, otherwise they will have to lay over until our next issue. At the annual meeting of the State Grange of P. of H., in 1884, the Executive Committee of the State Grange made arrangements to occupy a few columns of the WESTERN FARMER to publish to the world the principles of the Order, which are peculiarly adapted to all agricultural communities—hence the addition to our title, WISCONSIN GRANGE BULLETIN. ## A CURIOUS TABLE

UPON WHICH IS SPREAD MUCH

# FOOD FOR THOUGHT,

AND TO WHICH THE ATTENTION OF ADVERTISERS AND NEWSPAPER PUBLISHERS IS INVITED.

On the twenty-sixth day of December, 1885, a proof of this Table of Rates (SEE NEXT PAGE), was mailed to the publishers of all the papers which are named upon it, and each one was informed that:

The object of compiling the table has been a view of enabling publishers to consider a question which advertisers and advertisement brokers can never permit themselves to lose sight of, viz., "What paper gives the advertiser most for his money?"

There are other elements of value beside circulation, but every publisher and advertiser admits that circulation is an important element and one that must always be considered; it is the only element which can be exactly measured.

In the last column at the right hand of the table is given the rate demanded by each paper for inserting a five-inch advertisement in a thousand copies for a whole year, six issues per week.

It will be seen that some papers charge nearly ten times as much as others for the same thing.

We do not say that the scale of prices in each case is not fairly graded, but we ask of the publishers, whose rates we quote, to consider the question whether it actually is so or no!

It will be noted that the quotations are for daily papers only; that they are given for but one paper in a State; that the paper is in every instance one of the very best in the State.

In reply to our communication there came letters from twenty-three offices.

The publisher of the Chicago Daily News wrote:

"We are exceedingly gratified to see a disposition on the part of an advertising agent or advertiser to figure out just exactly what advertising really costs."

And from the office of the Charleston (S. C.) News we have the following, under date of Jan. 8th, 1886:

"In the South particularly, every daily newspaper, especially out of the cities, is read by several persons. It is passed from hand to hand in a manner which is comparatively unknown in the densely populated and newspaper-loving communities in the North or New England. In this way the actual circulation is far beyond the apparent circulation. Another point to be considered in connection with Southern newspapers is that, as a rule, they are read more carefully by the Southern public than Northern newspapers are by the Northern public. It is the rule to read the newspaper all the way through, and not merely to skim it. There is not the same rush and dash as elsewhere, and for this reason an advertisement stands a better chance of being read and pondered, as a general thing, in a Southern newspaper than in a Northern one.

It is only in an office where such matters are made a study and the occupation of every business day, that the requisite information is possessed to make it possible to weigh the claims of every Newspaper and decide what rates are low, what fair, and what excessive. Geo. P. Rowell & Co.'s Newspaper Advertising Bureau, 10 Spruce St., N. Y., is such an office.

(Copyrighted according to Act of Congress, in the year 1886, by Geo. P. Rowell & Co., New York.)

In the last column on the right hand side of this table is printed the prices charged for each paper for inserting a five-inch advertisement in every issue (six days a week) for one thousand copies of its average circulation. It will be seen that the VIRGINIA CITY (Nev.) CHRONICLE charges \$160.00, while for precisely the same thing the PROVIDENCE (R. I.) BULLETIN charges \$17.50, the Nevada paper being nearly one thousand per cent. higher priced, if the circulations are of equal value.—N. Y., Jan. 19th, 1886.

Circulation, although not the only element of value for an advertiser to consider, is the principal one, and, without a fair circulation, no newspaper is successful in obtaining a permanent advertising patronage.

The Weekly Newspapers most largely patronized by advertisers charge rates for the insertion of advertisements, which seem to be based upon the idea that one cent a line for each line of space, in each thousand copies issued, is a fair price for advertising. This gives ten cents a line for 10,000 circulation; 25 cents a line for 25,000; 50 cents a line for 50,000, and a dollar a line for 100,000 circulation. Many papers, having actual circulations to correspond with the rates fixed on this basis, are in the habit of demanding the same price for all advertisements, no matter how large or long continued.

Experience soon teaches advertisers, when contracting for a small advertisement to be inserted a few weeks, that what are known as the high priced papers give very much more publicity for the money than can be obtained in those of smaller circulation, when separately bargained for. To such an extent is this true, that many advertisers, accustomed to look only upon the surface of things, make a rule never to advertise save in what are known as first-class papers, whilst it is a fact just as easy of demonstration that, for advertisements of considerable size to be inserted by the year, the largest publicity can be obtained by investing the money to be expended, with publishers of comparatively unimportant journals. For example, the New York Weekly Sun, for inserting a 100-line advertisement one week charges \$50, and to put the same advertisement in 50 county papers in the State of New York, having an aggregate circulation equal to that of the Sun, would cost at least \$100; but to put the same advertisement in the Sun one year would cost \$2,600, while the 50 county papers, charging at their full yearly rates, would demand no more than \$1,500, and it would be more easy for an advertiser to induce the fifty to do the work for \$1,000, than it would to procure an acceptance from the Sun at \$2,000. If circulation is the only element of value, it would be found that, for a week, the Sun is 50 per cent. cheaper for the advertiser, while upon a yearly contract the case is reversed.

Some advertisers claim to get advertising done at one-half, one-third, or one-fourth the rates given in the above table. Some at a rate lower than the lowest named. This may be at times possible. The object of the table is to enable an advertiser to criticise the advertising proposals which are made to him, and to decide, in his own mind, to what extent they are advantageous or otherwise.

## DIRECTIONS.

To use the Table the advertiser will ascertain

- 1st. How many lines the advertisement measures!
- 2d. How many weeks the advertisement is to appear!
- 3d. How many thousand copies the paper issues.

Find the price, by the table, for the specified space and time; this will be for one thousand issues, which is to be then multiplied by figures which represent the number of thousand copies issued weekly by the paper under consideration—the result will be the price, at one cent a line for each thousand circulation. Compare this with the price asked and decide from this comparison to what extent the proposal is favorable or otherwise.

If the table does not quote figures for the number of lines required, the calculation may be made by addition; for 16 lines, add together the given cost of 6 lines and 10 lines; for 116 lines, add cost of 100, 10 and 6. So also for a number of weeks not given: 20 weeks will cost twice the price given for ten weeks, and so on for any specified space and time.

Advertisements set in Nonpareil count 12 lines, and in Agate 14 lines, to the inch.

A Daily Newspaper is not considered to be worth more than one-half as much as a Weekly issuing the same number of copies.

# Newspaper Advertising.

FOR TWENTY YEARS WE HAVE CONDUCTED A GENERAL ADVERTISING BUSINESS WITH AMERICAN NEWSPAPERS.

We are in direct correspondence with all publishers of newspapers in the United States and Canada, and all the papers are regularly received at our office, and kept on file for inspection by Advertisers.

For any responsible Advertiser making application in good faith, we prepare a written estimate showing the cost of any proposed advertising in any Newspaper or List of Newspapers in the United States or Canada.

We exhibit printed proofs of any advertisement when desired.

For the preparation of Estimates and Printed Proofs no charge is made, and the applicant is placed under no obligation to transact his advertising business through us unless it appears to him that by doing so he will best advance his own interests.

We have a great number of customers who pay us from time to time sums ranging from one dollar to ten, from ten dollars to fifty, and these small patrons are specially valued. What they do is sufficient to enable them to become familiar with our business and its methods; there is a moderate profit accruing from the transaction of such business as they bring; and if each small and occasional advertiser is favorably impressed he becomes a friend of our establishment from that time forth, and from the words of commendation he may from time to time let fall other persons are directed to our office who might not otherwise have heard of us, and from among whom, as time passes on, may develop large and bold advertisers. Every successful enterprise has a small beginning!

We have on our ledgers the names of more than five thousand advertisers, who are now doing or have recently done business with American Newspapers through our office. Some have entrusted their orders to us constantly for nearly twenty years. For one we have placed advertising amounting to more than half a million dollars, and from some individual patrons our orders have amounted to more than a quarter of a million each.

We spare no labor or expense in the service of our customers. We make their interests our own. We have a more perfect system and better facilities for transacting the business of Newspaper Advertising than has elsewhere ever been known.

We have an established credit with all publishers, so that there is never any delay on that score, about the appearance of an advertisement ordered by us. This is a matter of prime importance.

The American Newspaper Directory, the standard authority on newspaper statistics, has been issued by us for seventeen years.

We issue a pamphlet of over one hundred pages which is a general circular explaining our business and its methods: of this book on Newspaper Advertising 156 editions have been issued; it is sent by mail, post-paid, to any address for ten cents.

# WHAT WE WANT TO KNOW.

Applicants for Information about the Cost of Advertising should note the following suggestions, as by so doing delay and correspondence will be saved.

## COPY.

Don't fail to send a copy of the advertisement. It is the first requisite. Nothing else so well tells the object which the advertiser desires to accomplish.

Many papers have special rates for certain classes of advertisements. Some insert no medical advertisements; others exclude announcements which leave the reader in doubt concerning the object or business of the advertiser; many decline to place before their readers the prospectuses of other newspapers; and still others exclude pictures or large display type. For these reasons it is of importance that we know in advance not only what the business is for which we are to quote prices for advertising, but also the style of advertisement which is to be used.

## SPACE.

The space which an advertisement is to occupy should be designated.

The space should be given in inches or fractions thereof, or lines, and if in lines, the kind of type should be specified (Agate or Nonpareil). Agate type is fourteen lines to the inch and Nonpareil twelve lines. The term "SQUARE" should never be used in this connection; its meaning is indefinite.

An advertisement is of value not in proportion to its size, but according to its prominence and the completeness with which it expresses an idea. The science of writing advertisements consists mainly in saying in a few plain words exactly what it is desired to say—precisely as it would be written in a letter or told to an acquaintance.

When printed copy is furnished, in the absence of instructions to the contrary, it is taken as indicating the style of display desired. If the advertisement requires no special display the space may be ordered to be "as small as possible." If only one line or one word is to be displayed, Say so! In contracts of importance, or *whenever desired*, it is our custom to print sample advertisements and submit them for approval before forwarding for publication.

## NAMES OF THE NEWSPAPERS.

After the advertisement has been determined upon, the next matter of importance is the names of the newspapers to be used.

The list should designate whether daily or weekly issues, or both, are wanted, and whether, in dailies, the advertisement shall appear once, twice, thrice or six times a week, or include a Sunday edition, if one is issued in connection with the paper under consideration.

When the advertiser is competent to do so, he usually makes his list without aid from us. When not posted about newspapers, it is a general practice to write out a list of towns and submit it to us; after which, we write against each town or city the paper or papers which we recommend as best calculated to serve the interests of our patrons.

Sometimes our patrons are unable to name the papers which they ought to use. They wish to reach a class or section. For such it is our duty to make known the publications likely to accomplish the object which they have in view.

## THE TIME!

How long the advertisement is to appear!

The most favorable rates are to be had for yearly contracts. In a majority of papers, excepting the highest priced journals in the largest cities; the cost of inserting an advertisement for a year is not more than double the price for three months, and for three months not more than twice the cost for one month, and for a month scarcely twice that demanded for a single week. The most successful advertisers make contracts by the year, but small advertisers with limited means and credit do not find it practicable to begin that way, and advertisements intended to serve a temporary purpose, or to try an experiment, sometimes requires but one or a very few insertions. FIX THE TIME you wish to advertise, and plainly state it when you ask us for an estimate of the cost.

## HOW MUCH MONEY?

Persons who have had little experience as advertisers often have a pretty clear understanding of what they would like to do, but are entirely ignorant of the probable cost.

We have made out for such a person a plan of advertising calling for an investment of \$5,000, and on submitting it for approval, found our customer dismayed at the magnitude of the expense, he not having contemplated an expenditure exceeding \$200 or \$300, possibly no more than \$10 or \$25. In such a case labor would have been saved, if at the commencement of the negotiation the question, "How much money are you prepared to devote to this advertising?" had been asked and answered.

# We do not OWN any Newspapers.

**ALL the Advertising placed by us in American Newspapers is done on the following plan :**

## FIRST.

**YOU tell us what advertising you wish to do.**

A copy of the advertisement to be used and a list of the papers in which it is to be inserted is a preliminary requisite to the above. And these are prepared either

By You, { or by You and Us together,  
By Us, }

whichever seems best and most satisfactory at the time.

## SECOND.

The advertisement and the papers being determined upon

**WE carry out against each paper the sum which we recommend you to authorize us to pay.**

The list of papers, with prices attached, is called an "estimate."

## THIRD.

**YOU NOW LOOK THE ESTIMATE OVER, WITH** a view of making a revision of it if any change is thought best.

If you have at any time used one of the papers at a lower price, you say so, indicating the price.

If the price we name is in any case more than you think the paper worth, you cut it down to the price you are willing to pay. You only do this when you prefer to omit the paper unless it is secured at your own price.

In fact *if you really have any knowledge* which leads you to think our price is higher than it need be, say so, and let us use your knowledge for your own advantage, but if you have no such knowledge then don't pretend to have, for our prices are not made with a view of inducing you to pay all you will; but actually to get the advertising for you at the lowest price possible.

## FOURTH.

The estimate having passed your revision

**We forward the orders to the papers, offering the prices decided upon in the revised estimate.**

## FIFTH.

**We finally submit a memorandum of the advertising secured, accompanied with the letters from the papers with which we have failed to contract if there be any such. And unless you furnish us with further instructions the order then stands closed.**

On each of the letters we make notes, expressing our views of the arguments of the publisher. Also suggesting what paper could be substituted, and the price. You look these over, and if you decide to do anything with them you note your instructions on the same sheet before returning to us, and your memorandum becomes our authority for any further action taken.

For the papers in which your advertisement does not appear, you do not pay anything.

## ADDENDA.

It used to be urged against our estimates that they PROMISED nothing!

**What we do accomplish is generally satisfactory.**

It has been found in practice that while we promise less we accomplish more.

We have the most perfect system and arrangement ever known for conducting negotiations with newspapers and watching the fulfillment of advertising contracts.

We send out more advertising patronage to the newspapers than emanates from any other one source, but we forward no advertising order except as above! There is no exception to the rule.

# TO ADVERTISERS

AND

# BUSINESS MEN

---

IN 1865 we organized an Agency for the insertion of advertisements in ALL newspapers of the country.

We are now the authorized and trusted representatives of more than twelve thousand publications, and include among our occasional patrons fully three-fifths of all general advertisers who do advertising in journals outside of New York City.

Aiming to still further increase our business, we submit a few of the reasons which we think ought to have weight with intelligent advertisers, and induce them to favor us with their orders.

First—A varied and extended experience in the business during the past twenty years.

Second—A thorough and most complete system for transacting all business, promptly and well.

Third—The certainty that we can always procure the best possible terms, compatible with first-class work.

Fourth—The employment of competent and skilled assistants in every department, so that we submit carefully prepared proofs of matter to be used, together with estimates showing the cost of any proposed line of work, and execute all orders with care and precision.

Fifth—We are in frequent communication with all newspapers throughout the whole country, and the largest patrons of a great number of them. An Agency covering so wide a field, having so large and so general a business, with an established reputation and undoubted credit in every quar-

ter, has the best claims for terms from publishers, and is offered with on a higher plane, and on more liberal terms than could reasonably be asked for, or expected, by parties having but few patrons and a limited patronage.

Sixth—We pay particular attention to the preparation of **ATTRACTIVE** advertisements to be inserted in *choice* positions in the leading newspapers of all the larger cities and country towns. A card of four inches, whether well or ill done, costs the same, while in actual results there can be no comparison between the two. To address a newspaper reader so as to secure attention, requires skill and experience, and to be able to do so from day to day, or week to week, is a labor of much ingenuity and constant study. We believe we can give good advice on these points, and we certainly satisfy our own customers, who leave such details with us.

Seventh—Until recent years, advertisers had but little means of knowing the names of the best journals for their business, printed outside of the locality where they lived.

In organizing our business, we determined to remedy this defect, and in the interest of both publisher and advertiser we issued in 1869 the "**AMERICAN NEWSPAPER DIRECTORY**," which contained the first complete list of American newspapers ever published. This book (a volume of 1,400 pages) has been issued regularly every year since, and is the standard authority on newspaper statistics.

---

We seek the patronage of business men, of merchants and manufacturers, the skilled, the thrifty, the inventive, the earnest, in every pursuit, confident that by our perfected facilities for every kind of Newspaper advertising, we can do better work, for less money than it is possible for private parties to do.

When an intelligent man wants to purchase, he buys from parties whose standing in their several callings is a guarantee for the quality of their wares.
